Saved Cities

☒ Saved City 1

☐ Saved City 2

☒ Saved City 3

☐ Saved City 4

Once you select a city to search, you'll see a chart displaying the city's data compared with the average in the nation, as well a data table displaying the broadband data, cost of living data, and walkability ratings.

Once you search a saved city, you'll see a chart displaying the city's data compared with the average in the nation, as well a data table displaying the broadband data, cost of living data, and walkability ratings as compared to the other cities. You'll also be presented with the option to add other "saved" cities to the chart visualization.
